WHY A LINER DOCTORS® ABOVE GROUND LINER?

Liner Doctors® pool professionals have chosen a premium line of above ground liners that will provide years of backyard pool enjoyment. The Liner Doctors' selection provides a wonderful blend of contemporary patterns that work with any style or color above ground pool. Specifically designed for the pool professional, they are engineered using the best vinyl available and supported with industry best warranties.

THE LINER DOCTOR "EXPERT" ADVANTAGE

Utilizing your Liner Doctors certified pool professional means you are in the trained hands of an experienced pool technician. These "Doc's" understand how to diagnose your backyard's DNA to ensure proper pool and liner installations all the time every time. What does that mean? Well, each backyard is different so our trained pool professionals will typically evaluate the following:

- Proper pool placement in your backyard for maximum sun and enjoyment.
- Amount of excavation necessary for a level, safe pool.
- Region friendly ground treatment to avoid unwanted weeds growing under your pool.
- Specify appropriate foundations to protect your pool in unseasonable weather.

Our dealers commonly go through annual training to ensure that they are current on all the latest changes to local codes and regulations as well as new techniques that improve the pool and liner installation process. Many are certified each year through the Association of Pool and Spa Professionals (APSP.org) continuing education programs that require hours of in field and classroom work. So when you see a CPO (Certified Pool Operator), CSP (Certified Service Professional), or CPB (Certified Building Professional) you can rest assured that they know their work!

So, when making your decision on buying an above ground pool and liner, choose the pool professional, choose the Liner Doctors!
