Tekken™ Broad Spectrum Fungicide

CONTROL 21 DISEASES WITH ONE APPLICATION RATE

Tekken™ Broad Spectrum Fungicide uses two modes of action to help manage resistance and knockout 21 diseases with one punch, including anthracnose, dollar spot, and brown patch. The patent-pending formulation of Tekken increases turf quality while reducing the risk of turf damage compared to stand-alone DMI applications. And, it's applied at one rate for all diseases, and the control lasts for up to 28 day, eliminating the guesswork.

Tekken is proven to control:

- Anthracnose
- Cool season brown patch, Yellow patch
- Copper spot
- Bermudagrass decline, Take-all root rot
- Brown patch, Large patch, Zoysia patch
- Brown ring patch, Waitea patch
- Dollar spot
- Fairy ring
- Fusarium patch
- Gray leaf spot
- Gray snow mold, Typhula blight
- Necrotic ring spot
- Pink patch
- Pink snow mold, Microdochium patch
- Powdery mildew
- Red thread
- Rusts
- Stripe smut
- Spring dead spot
- Summer patch
- Take-all patch

Dollar Spot Evaluation:

Untreated

Treated with Tekken™ – 28-day interval

Evaluating Isofetamid + Tebuconazole Premixes and Application Intervals for Dollar Spot Control on Creeping Bentgrass Greens

University of Missouri

Application began May 6, 2016 and followed 14- or 28-day schedules. Evaluation date Aug. 26, 2016.

Anthracnose Evaluation:

Untreated

Treated with Tekken™
– 14-day interval

Brown Patch Evaluation:

Untreated

Treated with Tekken™
– 28-day interval
