

1/4" Black Fire Glass

Product ID: AFG-AFF-BLK
Weight: lbs
Manufacturer: American Fire Glass

1/4" Black Fire Glass

Black exudes power, grace and a timelessly formal sense of style. It is a color that is known to absorb all negative energies and give a touch of class to almost any color scheme. When you add black to any presentation, get ready for a sensational display worth remembering.

American Fireglass' 1/4" black fire glass is the perfect choice for both indoor and outdoor fire features, bringing a classy appeal to every gathering. When set alight, the flames seem to dance upon the seemingly wet glass in a display of stunning contrast, immediately becoming the focus of all conversations.

A Practical Alternative to Ceramic Logs & Stones

Aside from its beauty, our black fire glass is also very practical. It does a great job of covering the entire floor of a fire feature, effectively hiding the unseemly pipes and tubes which are often visible in gas fireplaces or fire pits. This makes fire glass a more desirable alternative to the more common ceramic logs and fire stones.

Extremely Durable, Safe & Long Lasting!

This amazing tempered glass has been designed to withstand harsh weather and temperatures of up to 1300 degrees Fahrenheit without ever cracking, or losing its color or shape. Used correctly, it could last your customers a lifetime!

Another advantage of fire glass is that it does not emit any toxic fumes, smoke, or ash, so it is extremely easy to maintain and clean. Thus, your customers will be able to spend more time enjoying the new addition to their home and hardly any time cleaning it!

Introduce your customers to our 1/4" black fire glass, and treat them to an unforgettable display of

light and colors.
