

Royal Blue Luster Fire Beads

Product ID: AFG-FB-ROYLST
Weight: lbs
Manufacturer: American Fire Glass

1/2" Royal Blue Luster Fire Beads

Some people only appreciate the finer things in life and always expect to be treated like royalty. For such blue bloods, we have the perfect treat: our royal blue luster fire beads!

Reminiscent of dark blue gemstones, this luster variety of royal blue has been infused with silica, giving it a gorgeous warm glow which is sure to impress the most hard-to-please audience. Ideal for both indoor or outdoor environments, our royal blue luster fire beads have the unique ability to turn even a modest fire feature into a luxurious work of art. Although ideally suited to silver or off-white backgrounds, these exquisite ornaments will go well with almost all surroundings, dazzling onlookers and beautifying the scenery. They may be used alone, or mixed with other complementary colors for a completely unique look. When the fire feature is lit, your customers and their guests will be treated to a magnificent display as the lovely gem-like beads gleam and reflect the bright yellow flames of the fire above them.

A Practical Alternative to Ceramic Logs & Stones

Our royal blue luster fire beads aren't just splendid to behold, but are also very practical. They do a wonderful job of covering up the entire floor of a fire feature, effectively hiding the pipes and tubes that are often visible in gas fireplaces or fire pits. This makes fire beads a more desirable alternative to the commonly seen ceramic logs and fire stones.

Extremely Durable, Safe, & Long Lasting!

All our fire beads are made with high quality glass that has undergone a unique 5-step manufacturing process that renders them a dazzling shine and also allows them to withstand

temperatures of up to 1300 degrees Fahrenheit without sustaining any damage or discoloration. Under normal use, these amazing beads could last your customers a lifetime!

Another major advantage of our fire beads is that they do not emit any smoke, ash, soot, or harmful chemicals. This means they hardly require any cleaning and are very easy to maintain!

If your customers are blue bloods and are looking for some luxury, introduce them to our royal blue luster fire beads!
