## 1/4" StarFire Fire Glass

Few spectacles are as beautiful as the millions of brilliantly twinkling stars in the dark night sky. They evoke feelings of calm, serenity and even romance in all observers. Your customers can now recreate the same romantic atmosphere in their very own living area or patio with our 1/4" starfire fire glass!

This dazzling starfire fire glass from our 1/4" fire glass collection boasts a brilliant shine making it resemble precious gemstones or cold, clear ice crystals. When the fireplace is lit, the flames seem to dance upon these sparkling fire glass pieces, creating an illusion of melting ice set on fire, enchanting all guests and becoming the focus of all conversations.

Part of the beauty of our 1/4" starfire fire glass is that it works well with practically every color scheme, and in all types of décor styles. It can be mixed with other bright colors as well to create truly amazing effects. It is perfect for use in indoor fireplaces, or outdoor fire pits.

### **A Practical Alternative to Ceramic Logs & Stones**

Our starfire fire glass isn't just dazzling to behold, it is also very practical. It does a wonderful job of covering the entire floor of a fire feature, effectively hiding the unseemly pipes and tubes which are often visible in gas fire pits or fireplaces. This makes fire glass much more desirable as compared with the more common ceramic logs and fire stones.

### **Extremely Durable, Safe & Long Lasting!**

All our fire glass is made of brand new tempered glass via a unique, 5-step manufacturing process that renders it a lovely shine and allows the glass to withstand temperatures of up to 1300 degrees Fahrenheit and harsh weather without cracking, or losing its color or shape. Under normal use, this amazing product could last your customers a lifetime!

Furthermore, our fire glass emits no smoke, ash, or soot, making it extremely easy to maintain. This means your customers will be able to spend more time enjoying this lovely glass and less time cleaning it!

Let your customers bring home the starry night sky, introduce them to our 1/4" starfire fire glass today!
