

1/4" Evergreen Reflective Fire Glass

Product ID: AFG-AFF-EVGRRF

Weight: lbs

Manufacturer: American Fire Glass

1/4" Evergreen Reflective Fire Glass

Green... it's the color of life, nature and freshness. It floods the mind with gorgeous visions of spring time, deep forests and lush hills. Now your customers can bring all the life, freshness and rich visions of green to their own living rooms with our 1/4" evergreen reflective fire glass.

The evergreen color of this fire glass is particularly well-suited to décors dominant in red, pink and coral hues, but will be a beautiful highlight to any indoor or outdoor environment. When the fire feature is lit, your customers and their guests will be treated to a magical display as the sparkling evergreen glass pieces coupled with the bright yellow flames make their surroundings come alive.

A Practical Alternative to Ceramic Logs & Stones

Our evergreen reflective fire glass is not just dazzling to behold, but also very practical. It does a wonderful job of covering up the entire floor of a fire feature, thereby hiding the unseemly pipes and tubes which are often visible in gas fireplaces and fire pits. This makes fire glass a more desirable alternative to the more commonly seen ceramic logs and fire stones.

Extremely Durable, Safe & Long Lasting!

American Fireglass' 1/4" evergreen reflective fire glass is a product your customers are sure to use and love for years to come. They can count on the color to remain always evergreen, thanks to the heat-resilient properties of the tempered glass (up to 1300 degrees Fahrenheit) which is guaranteed to never shatter, crumble or lose its shape.

Another advantage of fire glass is that it is extremely low maintenance because it doesn't release any harmful chemicals, smoke, ash, or soot, thus your customers will be able to spend more time

enjoying the glass and less time cleaning it!

If your customers love green and everything natural, they are sure to love our 1/4" evergreen reflective fire glass!
