

1/2" Bronze Fire Glass

Product ID: AFG-AFF-BRZ12
Weight: lbs
Manufacturer: American Fire Glass

1/2" Bronze Fire Glass

Bronze has a strange timeless elegance to it, having been used in decorative art for centuries. Keeping with this ancient tradition, we bring you bronze fire glass from our 1/2 inch fire glass collection to help you add a touch of classic elegance to your customers' décor.

Just as gorgeous as the bronze fire glass from our 1/4 inch collection, these larger 1/2 inch pieces have a slightly greater appeal and allow for better air circulation, thus delivering a larger flame. Whether used outdoors, in your customers' firepit, or indoors, in their living room fireplace, our 1/2" bronze fire glass works equally well; the dancing flames rising from the bronze glass bed create an amazing fire display that will leave all onlookers spellbound.

A Practical Alternative to Ceramic Logs & Stones

Our bronze fire glass is not just enchanting to behold, it is also very practical. It does a wonderful job of covering the entire floor of a fire feature, effectively hiding the unseemly pipes and tubes which are often visible in gas fireplaces and fire pits. This makes fire glass a more desirable alternative to the more common ceramic logs and fire stones.

Extremely Durable, Safe & Long Lasting!

All our fire glass is manufactured using brand new tempered glass via a specialized 5-step process that gives it a brilliant shine and allows it to withstand temperatures of up to 1300 degrees Fahrenheit without sustaining any damage or discoloration. Used correctly, this amazing product could last your customers a lifetime!

One additional benefit of fire glass is that it does not require any regular maintenance or cleaning, because it emits no soot, smoke, or ash. Thus your customers can spend more time enjoying their fire glass and less time slaving over it.

If your customers are looking for an elegant addition to their next get together, look no further than our 1/2" bronze fire glass collection!

1/2" Bronze Fire Glass Specifications

Material: Color-infused tempered glass processed to perfection

Type: Non Reflective

Color: Bronze
