

1/2" Azuria Fire Glass

Product ID: AFG-AFF-AZBL12

Weight: lbs

Manufacturer: American Fire Glass

1/2" Azuria Fire Glass

Did you know that **blue** is the world's most popular color? At American Fireglass, we've made sure that our fire glass collection includes as many shades of blue as possible to meet everyone's preferences!

Here is one shade of blue that's bursting with coolness, elegance and serenity. Our 1/2" azuria fire glass is the perfect way to bring peace and tranquility to the environment. When your customers' fire feature is lit and the flames blaze over this sea-blue glass, it creates the illusion of fire dancing on water. The display works amazingly well in places where the décor is dominated by shades of white, blue, or earthen colors.

A Practical Alternative to Ceramic Logs & Stones

Our azuria fire glass is more than just exquisite to behold, it is also very practical. It does a great job of covering the entire floor of a fire feature, effectively hiding the unseemly pipes and tubes which are often visible in gas fireplaces and fire pits. This makes fire glass a much more desirable alternative to the more common ceramic logs and fire stones.

Extremely Durable, Safe & Long Lasting!

All our fire glass is made of high quality tempered glass and has been designed to withstand temperatures of up to 1300 degrees Fahrenheit and harsh weather without ever cracking, or losing its shape or color. Used correctly, this amazing product could last your customers a lifetime!

Another advantage of our fire glass is that it does not emit any toxic fumes, smoke, ash, or soot, thus it requires very little maintenance. This means your customers will be able to spend more time enjoying their fire glass and less time cleaning it!

If your customers are looking for something to mesmerize their guests, introduce them to our 1/2" azuria fire glass!
