

1/2" Cobalt Fire Glass

Product ID: AFG-AFF-COBL12
Weight: lbs
Manufacturer: American Fire Glass

1/2" Cobalt Fire Glass

Cobalt blue boasts a unique and striking beauty and has been the color of choice in some brilliant glass displays. Now your customers can replicate that same beauty in their homes with our 1/2" cobalt fire glass. It features the same gorgeous cobalt color as our 1/4" cobalt fire glass, but delivers a very different effect.

Similar to our 1/4" cobalt fire glass, this variety is chunkier, allowing for better air circulation which results in a bigger, more impressive flame. Especially suited to classic décors dominated by colors of blue or earthen tones, our 1/2" cobalt fire glass will turn any humble fireplace into a brilliant display of decorative art. Your customers may also consider mixing it with clear fire glass to create an even more appealing effect. When the fire feature is lit, the liquid-like flames appear to dance atop the bed of cobalt fire glass, creating a fire display that will leave all onlookers enchanted.

A Practical Alternative to Ceramic Logs & Stones

Our cobalt fire glass is not just dazzling to behold, it is also very practical. It does a wonderful job of covering the entire floor of a fire feature, effectively hiding the unseemly pipes and tubes which are often visible in gas fire pits and fireplaces. This makes fire glass a more desirable alternative to the more common ceramic logs and stones.

Extremely Durable, Safe & Long Lasting!

Our 1/2" cobalt fire glass is manufactured using brand new glass that is tempered to perfection. It has been designed to withstand harsh weather and extreme temperatures of up to 1300 Fahrenheit without losing its color, shine, or shape. Even after many years of use, it will not melt, discolor, or degrade.

Another appealing quality of our fire glass is that it does not emit any smoke, soot, or ash. So, it is

extremely easy to clean and maintain.

Encourage your customers to bid adieu to their old fire logs and stones and treat themselves to a fresh and new experience with our 1/2" cobalt fire glass!

1/2" Cobalt Fire Glass Specifications
