

19" Round Stainless Steel Drop-In Fire Pit Pan (1/2" Nipple)

Product ID: SS-RSP-19

Weight: 10.0000 lbs

Manufacturer: American Fire Glass

19" Round Stainless Steel Drop-In Fire Pit Pan

A warm, roaring fire glass display is just what your customers need to add some excitement to their next outdoor get together. The fire will warm the surroundings while the fire glass dazzles your customers and their visitors, becoming the focus of all conversations. However, in order to organize a truly awesome fire glass display your customers will need the right equipment; this includes our 19" round drop-in fire pit burner pan!

Maximizes the Magic, Minimizes the Fire Glass

Our 19" round drop-in burner pans come with a convenient lip so that they can easily be inserted into your customers' circular fire pit and then removed after use. Fire pit pans give fire pits a false bottom which significantly reduces the amount of fire glass your customers will need for their display because the pans create the illusion that the entire fire pit is full of fire glass, whereas only the top portion of it is. Your customers get an amazing fire display with minimal fire glass!

Extremely Durable & User Friendly

Made of 304 stainless steel, our 19" round drop-in burner pans are extremely durable and have been designed to withstand extreme heat and harsh weather without sustaining any damage or rust. It comes with built-in weep holes to prevent water accumulation and is also fitted with a convenient 1/2" nipple for easy attachment to a propane or natural gas supply.

All that remains is to fit a burner atop the round drop-in pan, throw on some fire glass and ignite the flames for a mesmerizing spectacle!

(Please note: For propane applications, a propane air mixer is required)
