

60"x 6" Linear Channel Drop-In Pan with Spark Ignition Kit - Propane

Product ID: SS-LCBKIT-P-60
Weight: 20.0000 lbs
Manufacturer: American Fire Glass

60" x 6" Stainless Steel Linear Channel Drop-In Pan with Spark Ignition Kit (Propane)

A warm, cozy fire pit can be an ideal outdoor retreat for family and friends, especially during those cold winter months. Our 60" x 6" linear channel drop-in burner pan with spark ignition kit (propane) is just what your customers will need to organize such an event. With just the flip of a switch, your customers and their guests will be enjoying a brilliant flame and lots of memorable conversations!

Our 60" x 6" linear drop-in pan with spark ignition kit (propane) comes fully equipped with all the following components:

60" x 6" Linear Channel Drop-in Burner Pan w/ Built-in T-Burner - Our 60" x 6" linear drop-in burner pan comes with a convenient 'lip' so it can be installed into your DIY fire pit and easily removed after use. These burner pans greatly reduce the amount of fire glass your customers will need to fill their fire pit by creating a false bottom which gives the illusion that the fire pit is full, whereas only the top part of it is. All our linear drop-in burner pans are made of 304 stainless steel, which means they are very durable and can withstand extreme heat as well as harsh weather without sustaining any damage or rust. Each comes with a built-in T-burner, 1/2 inch gas inlet and drilled weep holes to prevent water accumulation.

A Push Button Spark ignitor - requires a single AAA battery (not included) and ignites with the push of a button

Fire Pit Connection kit with key valve
