AGUAGEVITY™
A HAYWARD® BRAND

A POOL THAT PERFORMS

The universal platform that unlocks more ways to move, relax, play, and connect in the water.

Aguagevity is a two-part system that transforms your pool into a space for multifunctional fitness and recreation. At its core is Agualock,™ a discreet, built-in anchor paired with a simple spring-lock connection that lets you switch seamlessly between an array of fitness and recreation accessories in seconds. Designed for ease and simplicity, Aguagevity makes your pool more than water. It makes it a wellness and recreation destination for everyday enjoyment.

THE AGUAGEVITY SYSTEM

» **Swap Accessories in Seconds** From workout to play with one simple secure connection.
» **Seamless Design** Low profile mount blends into your pools wall.
» **Expandable System** Fitness, leisure, sports, lifestyle and more.
» **Built for Water** Engineered with corrosion-resistant materials for lasting performance.

UTILITY MEETS FLEXIBILITY

Whether you're looking for resistance training, aquatic therapy, or family fun, Aguagevity adapts to your lifestyle. Switch accessories easily to suit your goals.

BUILT FOR ENDURANCE

All metal parts on Aguagevity products are made with high grade 316 stainless steel and are highly resistive to rust and corrosion.

CUSTOMIZABLE

Available in four tension levels, our bands provide customizable resistance for beginners, advanced users, and low-impact strength training.

AT THE HEART OF AGUAGEVITY IS AGUALOCK.™

The discreet wall fitting style anchor is designed to integrate seamlessly into your pool. The fitting is permanently installed in the wall or floor set into the concrete pool shell, creating a secure foundation for everything your pool can do next. Once in place, accessories connect quickly and confidently, giving you the freedom to switch between fitness and recreation without tools or hassle. Engineered with corrosion-resistant metals and UV-stable materials to withstand harsh pool conditions, Agualock is designed for long-lasting performance and safety, so you can focus on enjoying the experience, not maintaining the hardware.

Agualock™ is professionally installed and available exclusively through authorized pool builders.

STRENGTH TRAINING, REINVENTED FOR THE WATER

Water adds natural resistance while reducing impact, allowing you to build strength, improve mobility, and train longer. Offered in four tension levels to match your strength and goals, enabling smooth, controlled resistance, for safer joint-friendly workouts. Ideal for beginners, advanced users, or low-impact training.

TENSION LEVELS Very Light Light Medium Heavy
