

Light Rings

ADAPTABLE LIGHT RINGS

Converts A Light Niche to Accept A Standard Replacement Light

Adaptable light rings will fit any metal or hand formed niche from 9-3/4" to 12" solving the problem of trying to repair an obsolete light, or trying to reconstruct a niche to fit a standard light. The unique feature of these light rings is that they can be installed in a few minutes and accept a standard light. Simply remove the old light, insert the Adaptable Light Ring, tighten the retaining screws, and install the new light. It's that easy.

The Adaptable Light Rings are part of our Consolidation Program. Instead of stocking hundreds of light parts to cover the multitude of possible replacement applications in the field, the Adaptable Light Ring allows you to stock a few of the most popular replacement lights.

500, 500B, 500C are Brass and Chrome Plated.

Part No.	Inside Diameter	Outside Diameter
500	10"	11 3/4"
500B	11"	12 7/8"
500C	10 1/8"	12"
500P	10 7/8"	12 5/8"

UNIVERSAL LIGHT RING

No. 500P (one size fits all)

As part of our Consolidation Program, our 500P model adapts to same lights that fit all 500, 500B, 500C models. Constructed from rugged ABS (plastic) for durability that offers the added benefit of light weight for easy handling and shipping. The unique design features a ground strap molded into the casing.

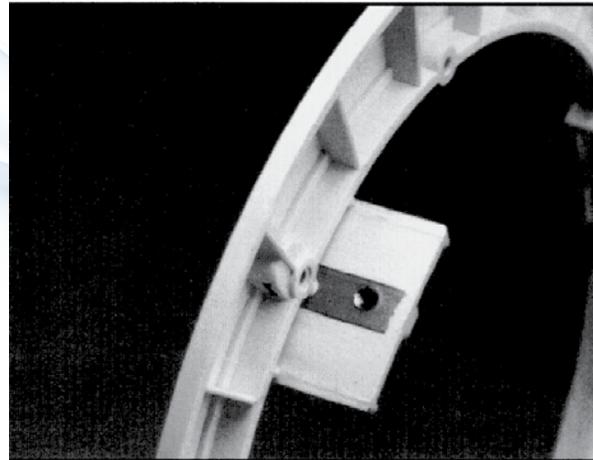

No. 500 (adapted for Purex, Wade and Pac Fab lights)

No. 500B (adapted for Hayward Starlight and Duralite Series)

No. 500C (adapted for American Amerlite and Hayward Astrolite Series)

No. 500P Universal Plastic Ring

No. 500S Replacement Brass Retaining Screws (Set of 3)

SILICONE LENS GASKETS

Premium quality *Silicone* lens gaskets outlast standard lens gaskets (designed to last an average of 50,000 hours). Great for use with LED or incandescent lighting. Provides superior chemical and weather resistance.
