Low Voltage Landscape Lighting Well Light - B201 Series

Product Description

The B201 Well Light is constructed with a PVC housing, and Flat Brass Cover for superior longevity and durability. This fixture is great for areas where a flush mount is preferred. The fixture comes with a 36" wire lead and PAR36 LED Lamp, which provides 120 degrees of light beam spread. These lights are to be buried with just the face of the well light above ground. The B201 Light includes two silicone wire nuts that are rated for direct burial applications and the PAR36 lamp. The PAR36 LED lamp can be easily replaced in minutes with just a screwdriver.

Warranty

- Tru-Scapes Lighting Sockets have a Lifetime Warranty.
- Light fixtures of brass, copper or stainless steel, including finishes are warranted for five (5) years.
- LED Bulbs are warranted for five (5) years or 30,000 hours, whichever comes first.
- Stainless Steel, Painted and Weatherproof (plastic housing) transformers, excluding timers and photo cells, are warranted for five (5) years for the original purchaser.
- Tru-Scapes warranties do not cover plants that die or burn because of continuous light shined on them. This is not a defect, but the inherent nature of such plants. Certain acid-loving plants such as arborvitae, pine trees, and others must not be exposed to light of any kind for more than 18 hours a day as these plants need time to sleep and allow photosynthesis to naturally occur.
- Low voltage landscape lighting fixture housings made of brass do naturally patina in color which is not a defect. (Please see www.Tru-Scapes.com for cleaning instructions.)
