

# **STRONG SOLUTIONS TO BUILD A MORE SUSTAINABLE WORLD TOGETHER**

**ARGOS PLC PORTLAND LESTONE CEMENT TYPE II  
SAME GREAT PERFORMANCE AS TYPE I/II WITH  
A LOWER CARBON FOOTPRINT**

**IMAGINE WHAT WE  
CAN BUILD TOGETHER**

# EcoStrong PLC

## PORTLAND LESTONE CEMENT TYPE IL

Engineered with a higher limestone content than portland cement reducing the carbon footprint while maintaining the same excellent performance you expect.

## BENEFITS

### 1:1 SUBSTITUTION

Can be used as a one-to-one substitution for Type I/II cement.

### COMPARABLE PERFORMANCE TO TYPE I/II

- Compressive strength
- Workability and finishability
- Durability and sulfate resistance

### OUTSTANDING WITH SCMs

Source dependent, tests show some PLC mixes with SCMs have higher strengths\*.

### ENVIRONMENTALLY RESPONSIBLE

With Argos PLC Type IL, you will be using a proven product with up to 10% less embodied CO<sub>2</sub>.

\*As comparable type I/II mixes.

01

### MEETS SPECIFICATIONS

Complies with code requirements and meets national and international specifications ASTM C595 and AASHTO M 240.

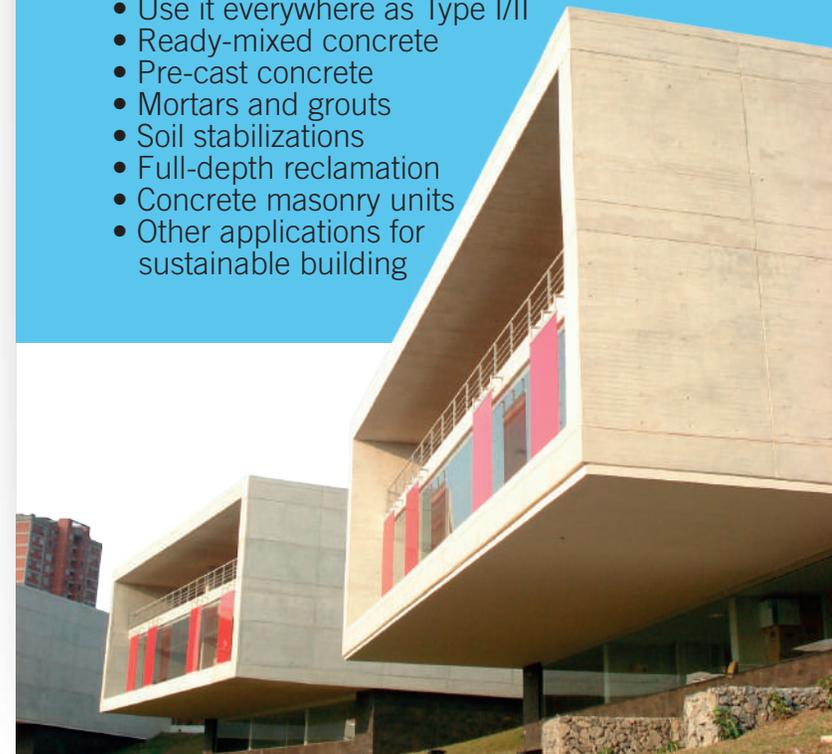

02

### TESTED & PROVED

It has been successfully used around the world for over 50 years and has over 6 years of proven performance history with our internal ready mix group.

## APPLICATIONS

- Use it everywhere as Type I/II
- Ready-mixed concrete
- Pre-cast concrete
- Mortars and grouts
- Soil stabilizations
- Full-depth reclamation
- Concrete masonry units
- Other applications for sustainable building

CAN BUILD TOGETHER

# EMPOWERING SUSTAINABILITY

We believe that we are all responsible to do our part to protect and conserve the planet, and the adoption of portland-limestone cement is a fundamental step to continue reducing our carbon footprint.

Argos PLC Type IL offers specifiers, architects, engineers, producers, and designers a greener way to think about concrete.

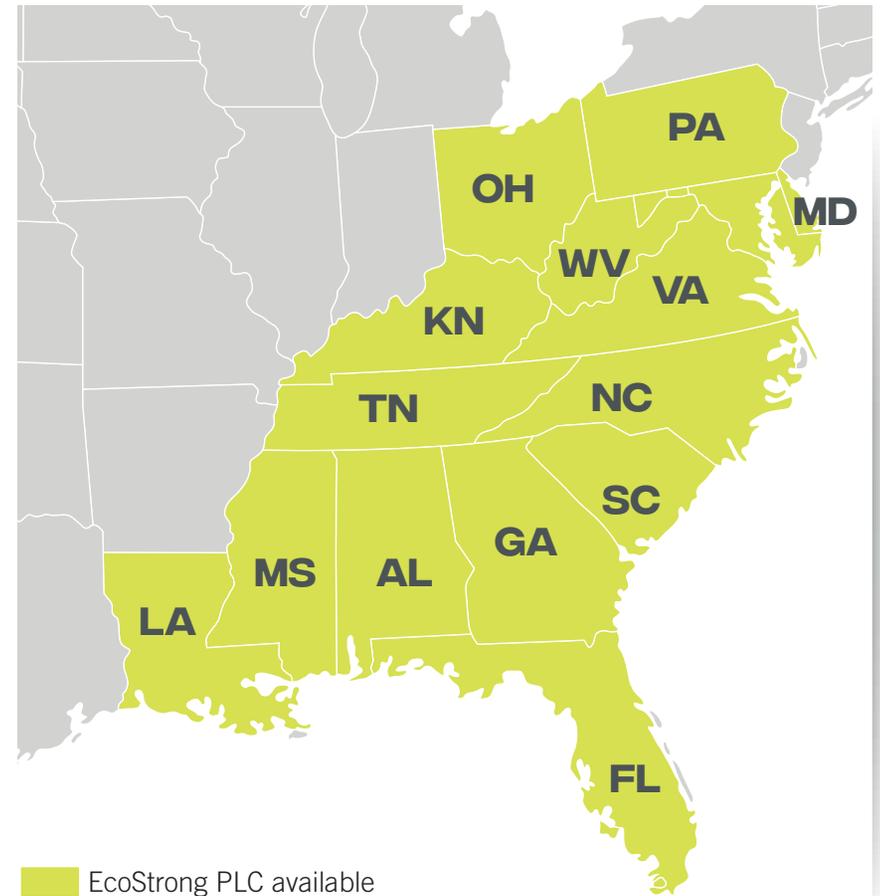

## WE ARE HERE TO SUPPORT YOU

Argos team is committed to providing you with the best in class service all the time.
