WIRELESS MOTOR INTERFACE

CONTROL YOUR POOL FROM YOUR PHONE.

Always thriving on innovation, Regal now offers wireless capability for VGreen® variable speed motors. VLink® wireless motor interface offers the ability to set, adjust, and monitor pump motor schedules from mobile devices. The program flexibility allows the user to monitor and manage energy consumption as well as set custom overrides for parties and cleaning. VLink® wireless motor interface works with both Android and iOS mobile devices. Now energy conscious pool owners have the ability to wirelessly monitor and manage their VGreen® pump motor anytime, anywhere!
