

Sanitation made easy

FEATURES

For permanent installation in return line on pressure side of pump, downstream of all equipment, in new or existing pools or spas

Clear pipe shows amount of chlorine/bromine in the unit without removing the lid

Transparent molded UV- and chemical-resistant body

Standard with 2-inch slip PVC fittings and adapters for 1½ inch

Completely enclosed system – no escaping gases, so no special venting is required

50 PSI maximum operating pressure

External fine control valve adjusts the feed rate to meet specific pool or spa needs

Top-load large or small Trichlor or Bromine slow-dissolving tablets for an effective, trouble-free way to sanitize pool or spa

Replacement parts and kits available from ProStar® Replacement Parts

1 per case

U.S. patents pending

ChemStar

Transparent body for easy visibility of chlorine tablets

Part # CH100CLR
