NOTES

1. Pavers should be installed from several pallets at a time to maintain the best color consistency.
2. Due to processes required to manufacture, package, deliver, unpack, install and compact the products, small chipping can be expected.
3. The 4x8 border pavers are machine cut and not dimensionally consistent. Artistic Paver Mfg. recommends these pavers should be used strictly as border material, therefore, not recommended for field material.

4. The product images in our catalogs, brochures, or shown on monitor screens give a general indication of color for a preliminary selection. We recommend you also view current product samples and look at actual finished projects before making your final decision.

ARTISTIC PAVER MFG.®
