# Jet-Vac keeps your pool looking pristine.

The fastest cleaner available –  
with the biggest throat!

Cleans average pool in under 2 hours

Jet-Vac stays in the pool – no need to  
deploy, remove, re-deploy

Replaces all other pressure pool cleaners

Proven reliability

Australian Made

*There is virtually nothing this  
cleaner can't swallow.*

The huge 115mm throat picks up twigs, large leaves, dirt, even golf balls and goggles! Large capacity bag compacts up to 3.5 litres of rubbish.

Unlike other pool cleaners that struggle to get traction on tiled and glass bead pool interiors, Jet-Vac handles these slippery surfaces with ease, and won't get stuck in corners.

Jet-Vac lives in the pool keeping the pool clean all year round and does not need to be continually removed, stored away and re-deployed.

Optimise the performance of your Jet-Vac by installing the Aqua-Quip Flow Control Pro+ Timer as an optional extra. The Flow Control Timer ensures the Jet-Vac booster pump synchronises with the pool pump, saving energy costs and preventing the risk of costly pump repairs.

No maintenance required... simply set and forget.
