COVER PUMPS

Our above ground series of highly effective cartridge filters will clean your pool down to 20 microns. Our compact designs, along with maximum filtering capability, will reduce maintenance time needed and make your pool pad look sharp! Aquapro's advantage is our superior designs & maximum hydraulic flow working in unison with the filter element for efficient performance.

- Corrosion resistant, reinforced thermoplastic tank for long life
- Maintenance is ultra-fast! Quick-lock seal and large drain plug
- Multiple sizes to fit your family's needs!

Cartridge Filter Features

- EZ-Read pressure guage for fast assessment
 - Brass insert to prevent cross-threading and checking
 - 1/2 turn, secure lock seal for quick & easy access
 - Corrosion resistant, reinforced thermoplastic tank for durability that lasts
 - Multiple sizes, to custom fit any application
 - Large drain plug, easy plumb design for fast installation + 2" NPT fittings
- UNIVERSALLY COMPTABLE NPT SETUP
FOR HASSLE-FREE INSTALLATION AND REPAIRS**
Setting a new standard for the industry!

SIMPLE DESIGN, EASY TO USE

Set it and forget it!! Our AquaPro Series of environmentally friendly cartridge filters will provide maximum dirt and debris removal, with very little maintenance.
