# RAPIDS 2000

ROBOTIC  
CLEANERS

## DESIGNED FOR ALL POOL SHAPES IDEAL FOR ALL SURFACES!

The Aquabot Rapids 2000 is designed to Speed-Clean Residential In-Ground Pools of all sizes and surfaces. Thanks to the patented AquaSmart Gyro System, the Rapids 2000 will automatically brush, vacuum and micro-filter dirt, debris and contaminants from pool surfaces!

The Rapids 2000 utilizes two powerful drive motors with split axle brushes to precisely clean your pool. The 2000 also includes the AquaSmart Gyro System, an intelligent program for robotic pool cleaners. The smart algorithm installed in the brain of the cleaner enables the robot to cover the pool in a systemized fashion without cable tangling. Additionally, The Rapids 2000 can change direction on the pool's bottom which helps enable one of the fastest and most efficient cleaning methods in the industry.

### KEY FEATURES

- Extra Long 60' Cable
- The Rapids 2000 is equipped with AquaSmart Technology to clean efficiently and reduce cable tangling
- Includes Super Grip PVA tires for superior wall climbing
- Wireless Remote Control
