- ✓ Log Lighter valve made of red brass with Teflon seat washer
- ✓ Available in straight and angle pattern
- ✓ CSA certified
- ✓ IAPMO listed

**AVAILABLE FOR
NATURAL GAS
AND PROPANE**

Propane Adapter

Log Lighter Bar has three ½" I.P.S. inlets to fit most applications. Two of the inlets are supplied with countersunk plugs. You can use ½" malleable street 90 fittings on each end of the bar to make standing legs.

Log Lighter Valves come in straight or angle pattern with a chrome plated flange and a 2-1/4" loose key.

- Valves are rated at 154,000 BTU/Hour rating at 1.0" water column.

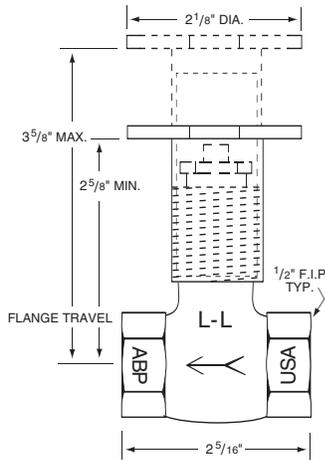

Propane Adapter is required for use with propane gas.
