

# PALM-jet Mg™

FERTILIZER  
Injection

## LIQUID MICRONUTRIENT SOLUTION FOR PALMS AND HARDWOODS

### PALM-jet Mg

(1% Nitrogen, 2% Phosphate, 2% Soluble Potash, 0.75% Magnesium, 0.07% Boron, 1% Iron, 1% Manganese, 0.40% Zinc)

PALM-jet Mg is a fertilizer containing minerals such as Potassium (K) and Magnesium (Mg) to promote green foliage, alleviate symptoms of Frizzle Top and alleviate seasonal nutrient deficiencies. Mg is an essential component of chlorophyll.

**Effective for:** Iron & Manganese Deficiencies, Nutrient Deficiencies, Leaf Yellowing, Interveinal Chlorosis, Alkaline Soils, Sandy Soils, Arid Soils

- 030-4130 PALM-jet Mg 1 Liter
- 030-4135 PALM-jet Mg 1 Liter Case of 4

*\*1 liter treats approximately 50 medium sized palms*

### Why Use PALM-jet Mg?

PALM-jet Mg is a fast and effective solution for symptoms of frizzle top in palms due to Manganese deficiencies and provides needed nutrients resulting in green up and improved plant vigor. The liquid formulation is specifically designed for rapid distribution through the vascular system of palms and trees.

- Concentrated formulation means low rates for quick and effective application
- May be applied as formulated or diluted with water
- Rapid green-up in two to four weeks
- Can be used on palms and hardwood trees
- Can be applied throughout the growing season

### Alleviates micronutrient deficiencies in...

Coconut Palm

Canary Date Palm

Royal Palm

...and More!

### Results

These photos were taken 16 months after treatment, with a treatment rate of 20ml of PALM-jet Mg. The treated palm (on left) exhibited a much healthier, vibrant canopy than the untreated palm (on right). Palms can be treated throughout the growing season.
