WavePath™ 2.0 Navigation Technology

Leveraging cutting-edge technology, WavePath™ 2.0 intelligently assesses the robot's position in the pool, selecting optimal cleaning paths to deliver a thorough and effective clean across all pool surfaces.

Unparalleled Cleaning Performance

With an incredible 7800 GPH suction and a spacious 7.5L filter basket, the Scuba N1 Ultra tackles all debris effortlessly while minimizing downtime. Say goodbye to frequent emptying and hello to a consistently pristine pool, allowing you to enjoy more leisure time with family and friends!"

Advanced Obstacle Avoidance with Four Infrared Sensors

Four infrared devices are equipped to the N1 Ultra, enabling the device to detect and react to obstacles present in your pool. For maximum cleaning coverage, superior precision, and extended cleaning capabilities.

WaveLine™ Technology

The industry's first horizontal waterline cleaning technology, allowing 60-second lateral movement, effectively removes stubborn buildup like sunscreen and oils, ensuring spotless waterlines in hard-to-reach areas.
