CONNECT AND CONTROL

# Sparkling clean all year round!

Control your pool from the palm of your hand and simply monitor and maintain the chemical balance of your pool with Aquachem.

*Aquachem does the hard work for you!*

AVAILABLE FROM:

## HOW IT WORKS

By simply using the Aquatek app, you can set and check the pH levels and easily change the set points to ensure your pool is balanced and ready to use.

The Aquachem is an automatic chemical dosing system which understands what your pool requires and when; all in the palm of your hand.

## PRODUCT BENEFITS

The Aquachem is designed to monitor, maintain and automatically adjust the pH and Chlorine [ORP] levels in your pool and spa.

It's easy to set the pH and ORP levels using the Aquatek app and the Aquachem will automatically dose pool acid to maintain the set pH level.
