

HIGH PERFORMANCE. OPERATIONAL CONVENIENCE.

SwimClear Quad Cluster

Cartridge Filter

A cluster of four reusable polyester cartridge elements provides a choice of heavy-duty and extra-long filter cycles.

Swimclear Quad Cluster

Cartridge Filter

- **Guaranteed crystal clear water** with Haywards extra dirt holding, high quality materials, that last years with minimal care.
- **Four re-usable polyester cartridge elements** that provide a choice of heavy-duty and extra-long filter cycles.
- **Uniform Low-Profile Tank Base Design**, makes removal of cartridge elements fast and simple.
- **High capacity**, rapid release manual air relief valve bleeds air with a quick quarter turn of the lever
- **Heavy-duty, tamper-proof, one piece flange clamp** securely fastens tank top and bottom and allows quick access to all internal components

***2 years + 1 year** if purchased from a Totally Hayward Partner.

SwimClear Quad Cluster is part of our Green Future range.
