

THE MOST INTUITIVE SMART- POOL CONTROLLER IN THE WORLD.

OmniLogic™

Automation System

Enjoy the luxuries of full control from **the industry's most intuitive app and effortless upgrades** to always keep your backyard on the cutting edge.

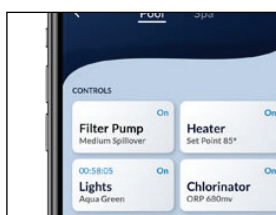

OmniLogic™

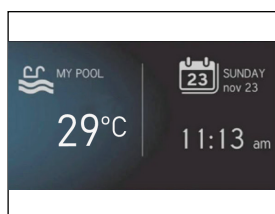

Automation System

THE CUTTING EDGE OF
BACKYARD CUSTOMIZATION.

- **Stay Cutting Edge.** OmniLogic is designed and engineered to advance with automation technology. The system's unique architecture allows for effortless access to the latest software upgrades, new capabilities, or even restoration of previous configurations.
- **Eliminate Complexity.** With the most intuitive, icon-based user interface on the market right on the base unit, set your controller to fit YOUR needs and preferences quickly and easily.
- **Easily Expand.** Thinking about adding a water feature? Possibly more landscape lighting? OmniLogic can accommodate you. With simple expansion hardware, it's easy and cost effective to seamlessly add features from heaters to pumps to lighting.
- ***2 years + 1 year** if purchased from a Totally Hayward Partner.

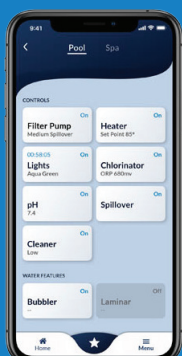

Remote capabilities for ease of use.

Customizable and intuitive user interface.

Wall mount included for simple access.

CONVINIENTLY CONTROL YOUR WORLD.

Seamlessly access your backyard via apps for iPhone and iPad, and Android devices, wireless and wired remotes, or the base unit itself depending on where you are or what you're doing. OmniLogic also has the ability to integrate with select home automation systems.
