

**Spa Electrics®**

# TITAN

PENCIL LED NICHE LIGHT

# TITAN

The **TITAN** Series is Spa Electrics' most compact luminaire to date—purpose-built for tight or shallow spaces such as steps, swim-outs, benches, and water features. Despite its size, **TITAN** delivers impressive illumination through its powerful MULTIPLUS RGB+White LED array.

Built to last, the **TITAN** features a robust titanium heat sink for enhanced cooling and LED performance. A fully sealed Quick-Connect Plug ensures fast, tool-free servicing and long-term reliability. Designed to complement the full Spa Electrics range, **TITAN** is the perfect finishing touch to any pool lighting design.

### BUILT COMPACT

At just 66mm across, **TITAN** delivers powerful illumination in an ultra-slim design—ideal for steps, swim-outs, benches, and other tight spaces.

### BUILT FLEXIBLE

**TITAN** is available with either a top-entry or rear-entry niche, offering greater flexibility during installation.

### BUILT SMART

A water-cooled Titanium Heat Sink ensures optimal thermal performance and long-term reliability, while the IPX8 rated Quick-Connect Plug enables fast, hassle-free installation and servicing.

The **TITAN** Series is designed and manufactured in Australia and backed by Spa Electrics' industry leading customer care network.
