We are the manufacturer and do not sell to the public. To purchase our product, please visit your local pool retailer.

Merchandise will not be accepted for return without a Returned Goods Authorization (RGA) number issued by Advanced Recreational Goods, which should be marked on all returned cartons. Returned shipments not having prior authorization will be refused. All returned merchandise must be new and unused with the exception of defective goods. A 25% restocking charge will be applied against any credit issued for salable merchandise. All goods must be returned freight pre-paid within 30 days after receipt of shipment.

#### ARG Limited Warranty

ARG warrants its products to be free of defects in material and workmanship for a period of one (1) year from the date of original purchase of the ARG product unless otherwise noted.

This Limited Warranty DOES NOT cover:

- Costs incurred in the shipment of cartage, removal and/or reinstallation (including but not limited to labor costs) with respect to the replacement product made available by Advanced Recreational Goods, INC pursuant to this Limited Warranty.
- Damage or improper operation of a product governed by this Limited Warranty to the extent same is caused by customer abuse, misuse, negligence, or failure to follow instructions or operation instructions.
- Use for which the product is not designed.
- Fire, explosion, weather conditions or natural disasters.
- Faulty or improper installation.
- Ordinary wear and tear.
- Damage caused by negligent or improper maintenance procedures and other causes not specified, by beyond the control of Advanced Recreational Goods, INC.
- Improper packaging, repackaging or damage incurred during shipping.

In order for this Limited Warranty to be effective you must:

- Be the original purchaser of the product from Advanced Recreational Goods, INC.
- Have not structurally modified, misused or misapplied the product manufactured by Advanced Recreational Goods.
- Have maintained the Advanced Recreational Goods product in accordance with the instructions from Advanced Recreational Goods, INC or as described in maintenance materials provided by Advanced Recreational Goods, INC to you.
- Have complied with all terms for the payment of the Advanced Recreational Goods product.
- Made your claim in writing to Advanced Recreational Goods within the time provided and in accordance with the terms of this Limited Warranty.

It is agreed that you have 30 days from the accrual of a claim to inform Advanced Recreational Goods, INC by registered mail with acknowledgement of receipt. It is agreed that you have one year from accrual of a claim to commence any legal action arising from the purchase of a product manufactured by Advanced Recreational Goods, INC.

This Limited Warranty shall be governed by and construed in accordance with the laws of the State of Georgia, except as to its principles of conflicts of laws, and Advanced Recreational Goods, INC and you irrevocably submit to the jurisdiction of the State of Georgia and the venue of Henry County in any action brought by the parties hereto concerning the Limited Warranty or the performance by Advanced Recreational Goods, INC thereunder.

For communication related to replacement products or other issues respecting this Limited Warranty, please contact:

Advanced Recreational Goods, INC.

# Pool Waterfall Tech Guide

ARG Pool Waterfalls Have Been Produced For Almost 20 Years  
Ports (Inlets) are 1-1/2 in Spigot - PVC Material - One Gallon Per Minute Per Inch\*

Back Port

Bottom Port

- Lip Sizes Available**  
 Not Available in All Colors  
 1 inch  
 3 inch  
 3.5 inch  
 6 inch  
 9 inch  
 12 inch

Because ARG Waterfalls Are PVC, They Are Easier to Cut In The Field vs The Competition.

Plumbing Inlet Port:

- 12 in, 18 in, 24 in & 36 in** are One Port  
**48 in, 60 in, 72 in & 84 in** are Two Ports  
**96 in** are Four Ports

Suggested Pipe Configuration :  
2 Way Valve

Up to 36 Inch Long

48 Inch - 84 Inch Long

96 Inch Long

\*One Gallon Per Minute, Per Inch (ex. 24 inch Waterfall Requires 24 GPM)

# Waterfall Measurements

Body

\*Lip Width 1 Inch = 1 - 1/16 inch      3 inch = 3 inch      3.5 inch = 3.5 inch      6 Inch = 6 inch  
 9 inch = 9 inch      12 inch = 12 inch

Lip Length

Waterfall	Lip Length (inch) **
<b>12</b> inch (WF12XXXXX)	12.7 inch
<b>18</b> inch (WF18XXXXX)	18.6 inch
<b>24</b> inch (WF24XXXXX)	24.45 inch
<b>36</b> inch (WF36XXXXX)	36.2 inch
<b>48</b> inch (WF48XXXXX)	48 inch
<b>60</b> inch (WF60XXXXX)	59.85 inch
<b>72</b> inch (WF72XXXXX)	71.54 inch
<b>84</b> inch (WF84XXXXX)	83.35 inch
<b>96</b> inch (WF96XXXXX)	95.24 inch

\*\*Plus or Minus .33 inches

# Pool Waterfall Tech Guide

A

Part Number  
WFRT00

**Must use filtered water (water must go through a filter before going to the waterfall).** A rock trap (A) is provided with each waterfall. This is only to collect the debris from building the pool, not for ongoing maintenance.

A metal tool (B) is provided for when cutting waterfalls in the field. The supports that keep the lip open must be broken off one inch from the front of the lip. The waterfall tool can also be used to clean the opening of the lip.

B

Part Number  
WFMT00

We recommend using at least one GPM per inch of waterfall. Using less may cause the water to wet the wall, affecting the appearance of the waterfall.

As the water sheet comes out of the waterfall, it will close in, looking like a V pattern.

To minimize this, try more GPM. The higher a waterfall is installed, the more pronounced the V shape will be.

## 12" & 18" Waterfalls

The flume on these sizes of waterfall is very narrow. For a more traditional appearance, we recommend installing the 12" at max height of 18" (8" projection) and 18" at max height of 24" (9" projection).

## Wet Wall Effect

Low flow installations may cause the wall surface to become wet when the waterfall is flowing. For a dry wall effect, it is best to operate at the higher end of the recommended GPM range. At the low end of the recommended GPM range the waterfall flume will still appear good, but you may be in the potential "drip zone." (Example: For a dry wall on a 36" waterfall, 36 GPM or more will give the best results.)

## Extended Heights and Projection

For a more dramatic effect, it is possible to achieve increased projection and heights above 40" by increasing the gallons per minute. Results outside of tested parameters may vary.

## Test Conditions

Testing was performed in our factory under optimum conditions. Environmental factors such as weather, construction method, hydraulic variations, and different equipment can alter appearance.

# Clean Pro Inline Chlorine/Bromine Tablet Feeder

## Automatic Chlorinator RESIDUAL SANITIZER SYSTEM

### Specifically Designed For Variable Speed Pump Applications

- Accepts 1 Inch or 3 Inch Chlorine or Bromine Tablets.
- Holds Eleven 3 Inch Tablets or Five Pounds of 1 inch Tablets.
- Air Bleed for Better Performance.
- Large Body For Easier Service.
- Clear Feeder Tube Indicates When Unit Is In Operation.
- 2 Inch And 1 ½ Inch Unions Included.
- Inserts In Body Are Specifically Designed To Work With Variable Speed Pumps. They May Be Removed When Using With A Single Speed Pump. (Or When Less Chlorination Is Desired).
- Part Number CIV00.

Manual Air Relief Plug Allows the User to Bleed the Air for Better Performance.

Chlorinators Sometimes Suffer from "Air Lock". Better Designed Chlorinators Have This Air Relief Plug Feature.

Left - Clear Feeder Tube Allows the User to See That The Unit is Operating. Clear Feeder Tube is Easily Replaceable. Clear Feeder Tube Feeds Chlorinator Body at The Top for More Efficient Performance.

Right - Chlorinator Dial Allows User to Set The Chlorinator for Desired Amount.

Inserts In Body Are Specifically Designed To Work With Variable Speed Pumps. They May Be Removed When Using With A Single Speed Pump. (Or When Less Chlorination Is Desired).
