

BR1570 REVERSIBLE PLATE COMPACTOR

OUR MOST COMPACT & COST-EFFECTIVE REVERSIBLE

Bartell Global's smallest and most versatile reversible plate compactor. This unit can easily stand in place of many popular forward plates because of the comparative cost, but with the benefit of increased production with the reversible feature.

- Smallest reversible compactor on the market today
- Fully hydraulic reversing mechanism with flexible maneuverability allows the machine for forward, backward, and spot-on compaction
- Cast aluminum throttle lever for a more professional, stronger, and durable for tamping
- Full roll cage and built in lifting bale for increased engine and guide hook protection
- Cast aluminum belt cover for increased clutch and engine longevity
- Ductile iron bases for increased strength
- Wheels that attach and flip down for easy transportation (on some models)
- Optional extension plates and urethane mat options available (on some models)
- Full speed in both forwards and reverse
- Specialized for compacting sand, trench, and patching
