

# PURE FLOW

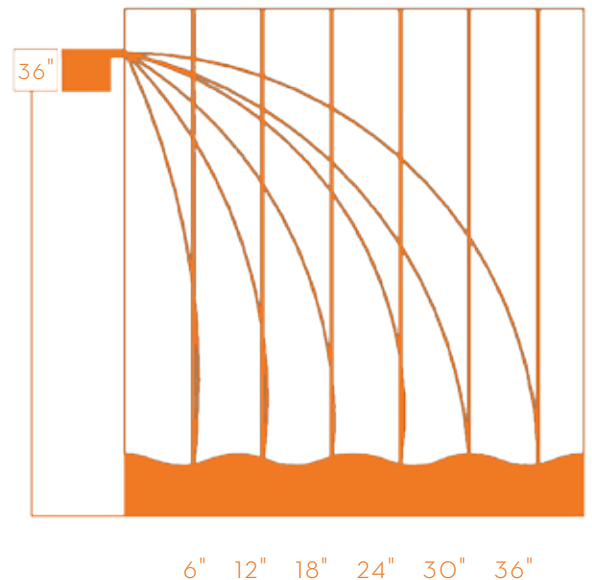

## PURE FLOW

BY BOBÉ WATER & FIRE

The Pure Flow scupper is engineered to flow based on pressure, so your result is a beautifully thick sheet of water that can flow up to 3' into your pool. Constructed of marine grade stainless steel that is 1/8" and 1/4" thick, you will never again worry about warping or caving.

| PROJECTION | GPM / FT |
|------------|----------|
| 6"         | 10"      |
| 12"        | 15"      |
| 18"        | 20"      |
| 24"        | 26"      |
| 30"        | 30"      |
| 36"        | 38"      |

| PURE FLOW SCUPPERS |                                       |
|--------------------|---------------------------------------|
| PF - 6             | 6" PURE FLOW SCUPPER STAINLESS STEEL  |
| PF - 12            | 12" PURE FLOW SCUPPER STAINLESS STEEL |
| PF - 18            | 18" PURE FLOW SCUPPER STAINLESS STEEL |
| PF - 24            | 24" PURE FLOW SCUPPER STAINLESS STEEL |
