

COMMAND SERIES

MR16

DESCRIPTION

The Command Series redefines smart outdoor lighting with a self-contained control network that requires no Wi-Fi, hubs, or repeaters. It delivers instant response for dimming, and adjustable Kelvin temperatures, while maintaining secure, reliable performance even offline. Contractors benefit from faster installs, fewer call-backs, and lower costs thanks to its simple setup. For homeowners, it means dependable, frustration-free control, energy savings from efficient LEDs, and no ongoing subscription fees. Users can also take advantage of a dedicated remote for quick, on-the-spot control without needing a phone. With UL certification, patented “radio silent” technology, and a 50,000-hour lifespan, the Command Series raises the standard for plug-and-play smart landscape lighting.

Part Number: **RC-MR16**
