Crystal Stones COLLECTION

A Collection of Pebble Pool Finishes That Keeps You in Touch With Nature.

At CL Industries, we are dedicated to bringing you some of the finest pool finishes available in today's global market.

We proudly present to you two finishes from our **CrystalStones®** Collection that will deliver brilliant water color with a durable, natural pool finish.

CrystalStones® Smooth, the ultimate in natural pebble finishes, provides an evenly textured surface that is easy on the skin, yet extremely durable.

CrystalStones® Natural provides a more natural, soft sandy beach feeling to the skin, while providing maximum durability.

No matter which finish you select, you can feel confident that your natural pebble finish will be resistant to nature's most damaging elements: sunlight, topical stains and harsh pool chemicals.

So, settle back, explore the possibilities with lush colors and sensual textures, and transport yourself to your ideal haven.
