MICRO

INSPIRED BY MOTHER NATURE

Our **CrystalStones®** collection delivers spectacular watercolor options with a durable, natural pebble pool finish. CrystalStones Micro offers up to 8 gorgeous finishes. **CrystalStones® Micro** pebble finishes provide an evenly textured surface by utilizing the smallest pebble size possible. The micro pebbles allow for a surprisingly smooth feel while also adding the benefit of traction.

Our raw materials are carefully selected for size, smoothness, and luster. **CrystalStones® Micro** is easy to apply through a traditional or spray application and turns plaster into a stunning, etch-resistant, snap-to-maintain finish that will completely transform your pool. **CrystalStones®** are the most durable, long lasting pebble pool finishes available today. CL Industries also offers an extended warranty through our Authorized Applicators.

CrystalStones® is setting the bar for the new age of pool surface technology. Settle back and explore the possibilities with lush colors and rich textures.

Transform your poolscape into the ultimate haven with **CrystalStones® Micro**.

BENEFITS:

- Proven Durability
- Rich Color
- Easy Maintenance
- Etch Resistant
- Variegated Aggregates
- Lightly Textured
