ROUGHNESS

Hydrazzo Classico Oceana Laguna

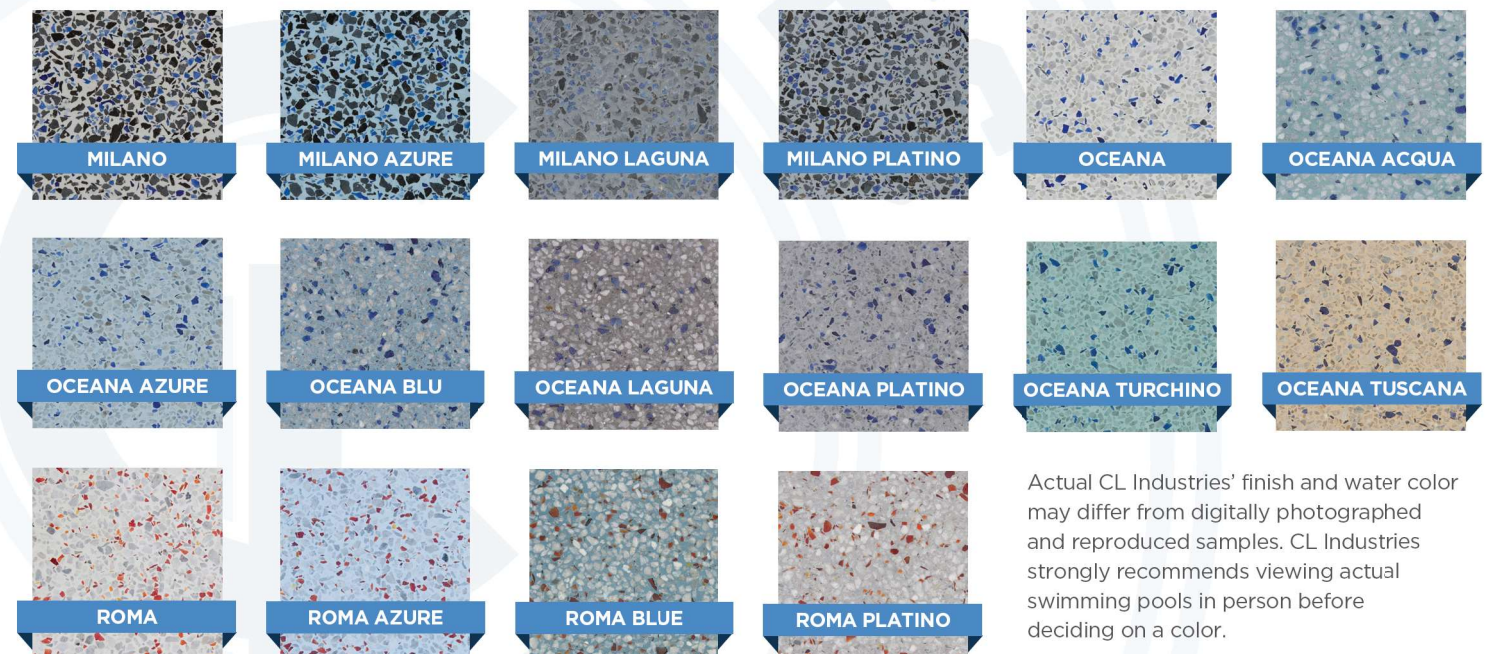

Hydrazzo® Classico is a one of a kind polished marble pool finish. **Hydrazzo** was the first polished finish in the industry, and it has set the premium standard in pool finish innovation. With a silky smooth texture (the smoothest of all CL Industries' products) and a natural variegated appearance, this finish complements all poolscape designs. **Hydrazzo® Classico** adds colored glass accents to the original formula. All **Hydrazzo** products are known for timeless beauty and easy maintenance in any domain.

One of the key factors to the **Hydrazzo** finishes' magnificence is the final step in the process. The finish surface is polished to a brilliant luster, and thereby unlocks the marble's natural aesthetic, and it's extraordinary strength. The color is breathtaking, achieving a soothing, color-intensifying effect. **Hydrazzo® Classico** is the "smooth sensation" in exposed aggregate pool finishes, friendly to fingers, toes and swimsuits.

BENEFITS:

- Proven Durability
- Proven Natural Ingredients
- Smoothest Exposed Aggregate Surface Available
- Resists Permanent Algae & Scale Adhesion

SAMPLES:

Actual CL Industries' finish and water color may differ from digitally photographed and reproduced samples. CL Industries strongly recommends viewing actual swimming pools in person before deciding on a color.
