

ABG PUMP WATER BOND RETRO-FIT KIT

The CMP Aboveground Pump Pool Bond Retro-Fit Kit allows for an easy way to install pool bonding to a standard aboveground pool pump through the strainer drain plug. This method is simple and requires minimal modifications to the existing pump. This product meets the NEC Section 680.26 (C) requirements, which requires that an intentional electric bond of a minimum conductive surface area of 9 squares inches be installed in contact with the above ground swimming pool water.

STAINLESS STEEL COIL SITS BELOW PUMP BASKET

BOLT CONNECTOR ATTACHES TO POOL BONDING WIRE
