

6MSP UTILITY/POOL PUMP

DANNER'S 6MSP UTILITY/POOL PUMP is a powerful, durable pumping source for a variety of common and emergency dewatering applications. With a maximum flow rate of 1900 GPH*, it can quickly remove water from flooded basements and rooftops, swimming pools, or pool covers. Fits inside most pool bottom drains and comes complete with adapters for a standard garden hose and pool vacuum hose fittings. *Using 1 1/2" pool hose.
