AOP: THE MOST POWERFUL ADVANCED SANITIZER

When germicidal UV light (UV-C) and ozone react through the Advanced Oxidation Process (AOP) powerful hydroxyl radicals are produced. AOP is dramatically more powerful than other sanitizers, and even more powerful than Ozone alone. The highly unstable hydroxyl radicals react with contaminants through strong oxidation reactions. This process happens *almost instantaneously*.

- Universal 120/220V, 50/60Hz
- Adjustable Ozone Output, 50mg/hr Standard
- Solid State Electronics
- cRUus, UL Classified, TUV SUD Certification

OZONE CREATES SAFER, CLEANER, CLEARER WATER

Ozone systems provide clean, clear and safe water for your pool, as well as a significant reduction in chemical sanitizer use.

- Destroys Chemical Resistant Organisms
- Oxidizes Contaminants
- Penetrates Biofilm Buildup
- Micro-Clarifies Spa Water
- Reduces Chemical Demand

Energy created in the patented APG cell splits molecular oxygen (O_2) into atomic oxygen (O_1).

The single oxygen atoms form a weak bond with free oxygen molecules to create ozone (O_3).

Once ozone contacts contaminants, the weak bond is broken, and the free oxygen atom destroys the foreign bodies & contaminants.

THE RIGHT TECHNOLOGY, THE RIGHT SIZE, THE RIGHT PRODUCTS
