POURTHANE[®] NS&SL

Premium-grade Polyurethane Joint Sealant with Accelerated Curing Capacity

POURTHANE is available in two different versions – **POURTHANE NS** is non-sag, while **POURTHANE SL** is self-leveling. Both products are polyurethane-based and offer high bond strength and outstanding durability.

The **POURTHANE** line is designed for sealing concrete joints in a variety of applications, including sidewalks, balconies, pavement, terraces, warehouses, factories, civil structures, plazas, and pitch pans. Its one-component technology offers ease of use and cost-effectiveness. The **POURTHANE** line is available in different colors to make sure each application is aesthetically pleasing.

- Available in colors
- Single component
- VOC compliant
- Specifically designed for easy tooling
- Available in non-sag and self-leveling formulas
- Permanently elastic – resists aging, weathering
- Convenient, easy-to-use packaging
