SURE-STEP™ Slip-Resistant Additive

DESCRIPTION

SURE-STEP slip-resistant additive is a finely ground polymer material for addition to concrete sealers for slip resistance. This additive can be added to most film-forming water- and solvent-based sealers, including the CS-309™, DECRA-SEAL™, and VOCOMP® series, as well as TIAH® and SEAL CURE™-309-25 from W. R. MEADOWS. Please consult sealer manufacturer prior to using, if using a product not listed above.

SURE-STEP provides improved chemical and abrasion resistance, and is more comfortable to bare feet on treated surfaces than sand or aggregate additives. The product's low density and insolubility characteristics will help reduce settling and provide optimum performance in its various applications, without changing the viscosity. Due to its low density, SURE-STEP stays suspended in thin materials.

USES

SURE-STEP is perfect for use on areas where a non-slip surface is desired. This includes walkways, driveways, garage floors, patios, and other surfaces.
