

FEATURES & BENEFITS

TECHNIQUE CHANNELS

Controls the flex of the fin, and efficiently propels you forward

CLOSED HEEL DESIGN

Creates a soft and secure fit and inhibits hyperflexion

NATURAL RUBBER

Provides a secure and comfortable fit

SHORT BLADE

Promotes shorter and faster kicks while experiencing propulsion through the water

ALL SKILL LEVELS

Appropriate for fitness and competitive swimmers to build cardiovascular conditioning

Studio Image(s): Front and side view of Z2 Gold Zoomers

FLUID SEPARATOR

Allows foot to easily slice through water while reducing fatigue on the down kick and quads

FLEX BOX

Catches water on the up kick, targeting and strengthening hamstrings and glutes

PRODUCT DESCRIPTION

With its short blade, the Z2 Gold Zoomers® fin encourages shorter and faster kicks while experiencing propulsion through the water. The comfortable fit of natural rubber creates a soft and secure fit and inhibits hyperflexion. The fluid separator on top of the fin allows the foot to easily slice through the water while reducing fatigue on the down kick and quads. The flex box on the bottom of the fin helps catch water on the up kick, targeting and strengthening hamstrings and glutes.
