

**FIREROCK**  
BUILDING MATERIALS

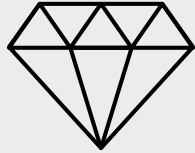

# **CONCRETE PAVERS**

A HANDCRAFTED ALTERNATIVE TO NATURAL STONE

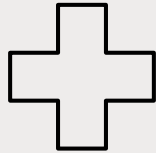

# FIREROCK CONCRETE PAVERS

## STRONGER

NEARLY 2X STRONGER THAN THE  
ASTM C1731 REQUIREMENT

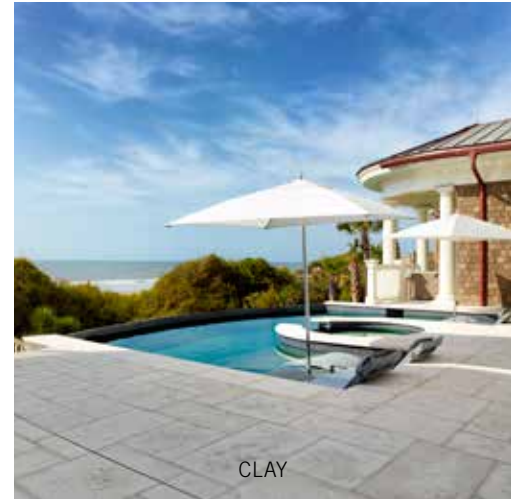

## SAFER

EXCEEDS ASTM 1731  
SLIP-TEST STANDARDS

## COOLER

HIGHER SOLAR REFLECTANCE  
THAN THE COMPETITION

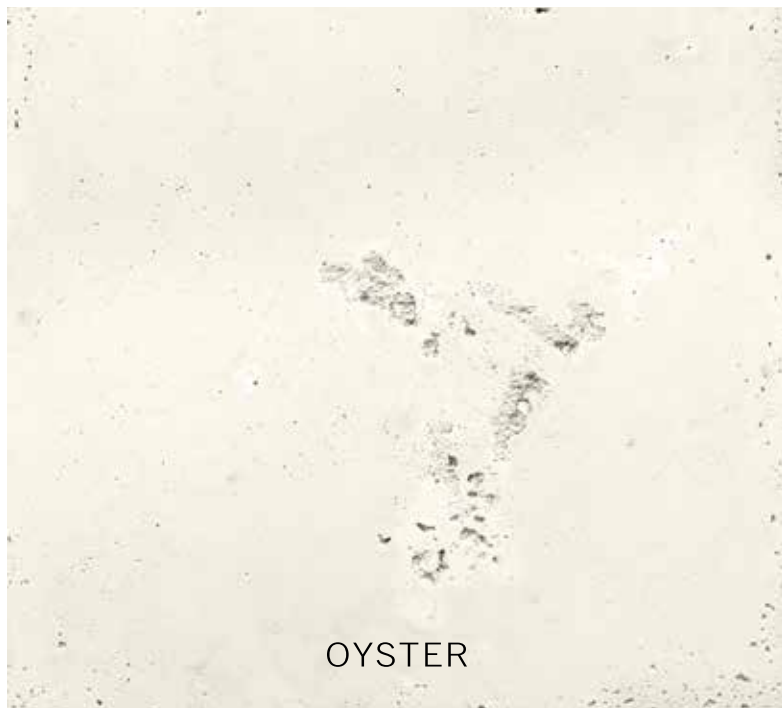

# FIREROCK PAVERS

---

FireRock concrete pavers are a handcrafted alternative to natural stone tile that can be used indoors or out. Our unique finishing process adds depth and texture to create the look of natural stone with the ability to choose from a variety of sizes, colors and thicknesses and be laid down in almost any configuration you choose. In addition to being a more affordable option than most natural stone, FireRock pavers outperform the competition in independent tests of strength, durability, safety and heat absorption.

\*THE SIZES LISTED ABOVE  
MAKE UP THE DRIVEWAY PATTERN

## COPING AND TREADS

\*STANDARD BULL NOSE IS ON LONGER SIDE

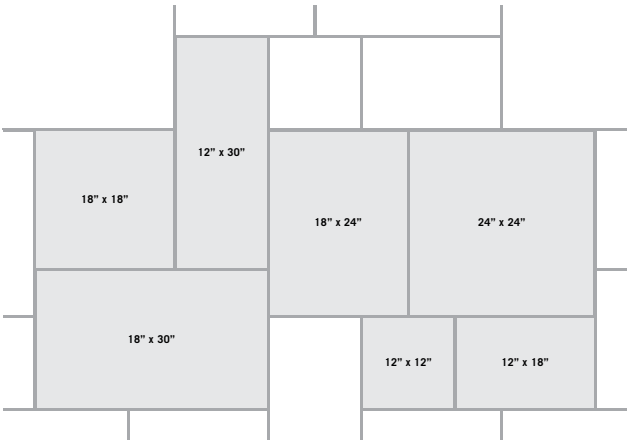

## CUSTOM ORDERS

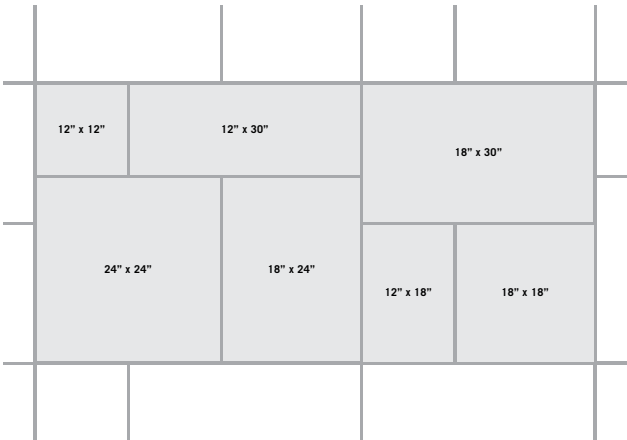

FireRock is happy to fulfill custom orders. An order is considered custom when it is outside the standard sizes, colors, and coping/tread options listed in this information guide. There is a surcharge for all custom orders. Call 888.876.1025 or see your FireRock dealer for more details and pricing information and lead times.

# 7 PIECE RANDOM PATTERN

RECOMMENDED FOR 1" OR 1 3/4" PAVERS WITH A 1/2" GROUT LINE

NO CONTINUOUS LINES

CONTINUOUS LINES

## PALLET DETAILS

1"

**STANDARD PACKAGING**

Includes all 7 sizes on pallet (random pattern)

**COVERAGE**

270 ft² per pallet, stacked vertically

**PALLET WEIGHT**

Approx. 3,240 lbs

**# OF PALLETS PER TRUCK LOAD**

14 (approx. 45,360 lbs total)

1 3/4"

**STANDARD PACKAGING**

Includes all 7 sizes on pallet (random pattern)

**COVERAGE**

198 ft² per pallet, stacked vertically

**PALLET WEIGHT**

Approx. 3,762 lbs

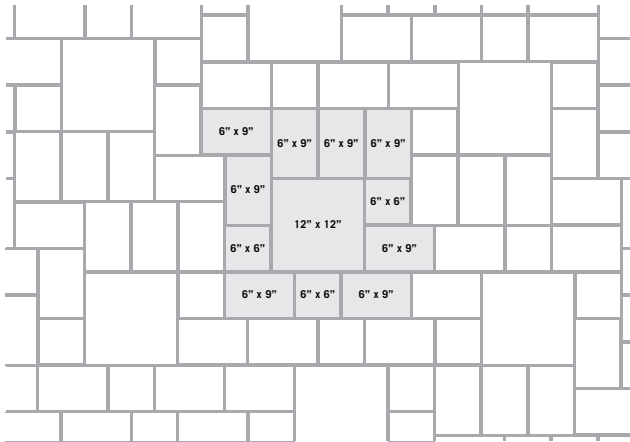

**# OF PALLETS PER TRUCK LOAD**

12 (approx. 45,144 lbs total)

# DRIVEWAY PATTERN

RECOMMENDED FOR 2¾" PAVERS WITH A ½" POLY SAND JOINT

DRIVEWAY PATTERN

## PALLET DETAILS

2¾"

**STANDARD PACKAGING**

1 size per pallet

**COVERAGE**

105 -112 ft² per pallet, stacked horizontally

**PALLET WEIGHT**

Approx. 1,568 - 2,062.5 lbs

**# OF PALLETS PER TRUCK LOAD**

14 (approx. 21,952 - 28,875 lbs total)

**6" X 6"**

**TOTAL PIECES**

288 pieces

**COVERAGE**

72 ft² per pallet

**PALLET WEIGHT**

Approx. 2,016 lbs

**6" X 9"**

**TOTAL UNITS**

220 pieces

**COVERAGE**

82.5 ft² per pallet

**PALLET WEIGHT**

Approx. 2,062.5 lbs

**12" X 12"**

**TOTAL PIECES**

56 pieces

**COVERAGE**

56 ft² per pallet

**PALLET WEIGHT**

Approx. 1,568 lbs

# SMOOTH PAVERS

---

FireRock smooth pavers offer an alternative to our traditional pavers while still maintaining the durability and affordability FireRock pavers are known for.

Our smooth pavers are handcrafted using the same proprietary concrete mixture used for our traditional pavers. However, with these pavers, we eliminate our unique finishing process, which results in a smoother appearance.

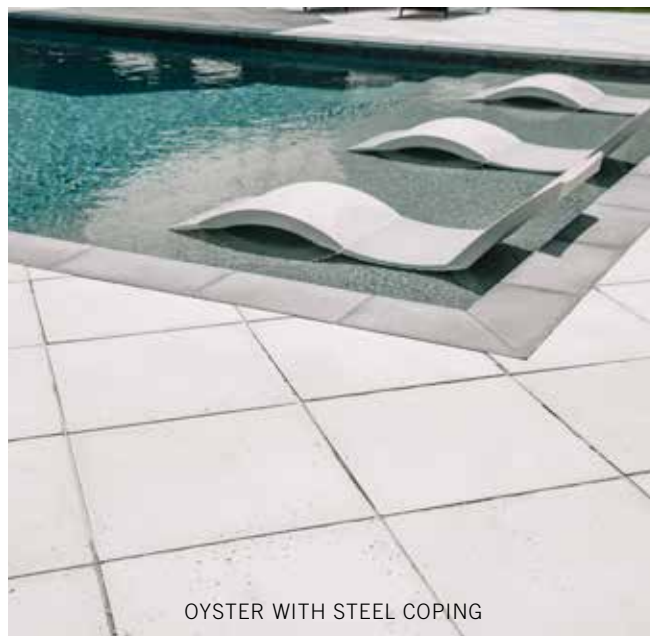

Though our smooth pavers won't have the pitting that characterizes our standard pavers, they may still have small air bubbles, which are most prominent around the outside perimeter. These air bubbles are a by-product of the handcrafted process used to create each paver.
