

LED Star Floor Kits

The newly reconfigured LED Star Floor kits include either a single or dual 12VAC, 5 watt light sources with a 25 or 50 point fiber optic transmission system for gunite pools or other concrete based features such as decks, outdoor seating, bar tops, etc. In this upgraded kit, the low voltage LED light sources are now mounted in a corrosion proof, wall- or post-mounted enclosure for easier access. Fiber length has increased to 50' to allow for more flexible applications and installations.
