FIBERGLASS LIGHT

iStar Compatible

Recommended Coverage:

Light - Medium Interior Color: 250-300 sq ft.

Medium - Dark Interior Color: 200-250 sq ft.

DESCRIPTION

The Fiberglass Light features a soft, evenly distributed light, providing outstanding illumination qualities, eliminating the end shadow effect common with other pool lights. The 50,000 hour, 5 Watt color changing RGB LED or White Light LED array operates from a safe 12V supply. The color program has six static colors and two color change modes. The Fiberglass Light will color synchronize with the Light Streams Water Features making it a great value in the growing family of 12VAC products by S.R. Smith. This family of high performance, low power consumption lighting products can be wirelessly controlled by S.R. Smith 12V Power Centers that include the PT-6000, WIRTRAN, WPCI-XXXX-T, WPC2-XXXX-T and now the NEW iStar control system.

FEATURES & BENEFITS

- No earth bonding required
- Non-leak water seal (no polycarbonate materials used for seal)
- Color changing LED lamp with 50,000 hour lamp life
- Six standard static colors and two color change modes
- Color syncs with Light Streams products
- Wide beam spread eliminates end shadow. Even light distribution.
- 3 year warranty. Best in the industry.
- Memory function *NEW feature*

MODEL NO. DESCRIPTION

FLED-C-FG	12VAC, 5 watt complete underwater RGB LED light assembly with a color array with color lock & color unison features and 80' of low voltage cord.
FLED-C-FG-150	12VAC, 5 watt complete underwater RGB LED light assembly with a color array with color lock & color unison features and 150' of low voltage cord.
FLED-W-FG	12VAC, 5 watt complete underwater RGB LED light assembly with 80' of low voltage cord.
FLED-W-FG-150	12VAC, 5 watt complete underwater RGB LED light assembly with 150' of low voltage cord.
FLED-LAU-C	12VAC, 5 watt RGB replacement lamp for LED underwater lights
FLED-LAU-W	12VAC, 5 watt white light replacement lamp for LED underwater lights
FLED-LC-FG	Clear Treo lens cover
