

AQUA RAIN

Falling water concepts with limitless versatility.

As standalone features or in conjunction with a larger watershape environment, the Aqua Rain provides a platform for all falling water concepts to allow homeowners and designers a larger spectrum of possibilities in their concept development.

Nozzle Options

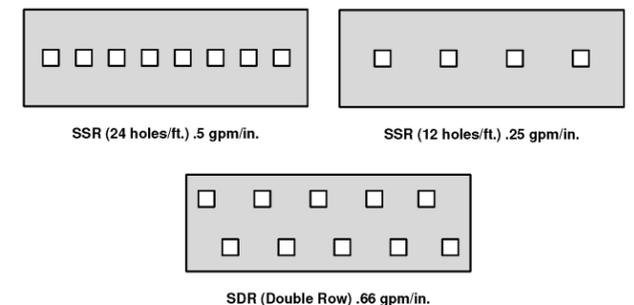

- Standard and custom units handmade in the USA for the highest-quality performance.

- Ranging from .25-.66 gpm/inch flow, single & double row stream patterns, back & bottom feed, 2" pvc slip inlets, variety of nozzle lengths & configurations, selection of standard colors, and each of the attributes are customizable.

- Modified nozzle designs for pergola & beam installs with custom curved units, including compound curve units are available through our fabrication shop.

- We welcome the challenge of all watershapes, so please feel free to contact us with the designs you want to bring to life.
