WARRANTY

Distributed exclusively by:

Powerful, durable cleaner suitable for all inground pools.

The GOBY Automatic Pressure Cleaner's gray and white color scheme is designed to blend with light-bottom pools. GOBY features an all-wheel belt drive mechanism for greater vacuum power and faster cleaning (3 hours or less). Powered by three Venturi jets, GOBY sweeps, scrubs, and vacuums the floor, walls, and steps of the pool and holds debris in its single chamber filter bag. GOBY removes debris before it reaches the pump basket or filter, prolonging filtration system life. The GOBY works in all inground pools and requires a booster pump. Parts are in stock and available everywhere.
