GPP-OTE-AHC20	4" ALUMINUM LADDER ANCHOR WITH 20" CHANNEL

Note: There is a spacing of 7" from the ladder frame to the pool wall where the frame curves in to brace against the pool wall. This point of contact will have a rubber bumper to protect the pool wall. The anchor placement for the ladder is 20" from center to center. The .065" wall is standard in the Modern Series. Anchor socket is 4" and constructed out of aluminum (GPP-OTE-AHC20). Anchors are not included. When ordering "Marine Grade" add "-M" at the end of the part number. When ordering stainless steel treads add "-SS" to the end of your part number.
