

# BODIE Heavy Duty Pruning Shears

*Sharper, Lighter, Stronger Tools*

## Innovative Blade Construction and Design

High carbon and stainless steel are used to supply a versatile combination of superior hardness and long-term durability. Not only do the blades stay sharp a long time, they also are more resistant to rust and sap build up and are easier to clean.

## Anchored Spring

Anchored to prevent the spring from popping out, shock absorbers for comfortable use

## Offset Blade

To maintain natural hand strength and increases cutting leverage

## Ergonomic Handles

Designed to provide comfort and control while protecting against issues from long-term use.

## Two Operation Positions

Lock at the first position for smaller opening for easy small snips, or let it go wide open for larger cuts!

HP-BODIE

The BODIE was created in response to strong demand from professional markets across the USA and in collaboration with leading engineers in Japan. Measuring 8.5 inches, it's the ideal size for comfort and control in most hands. Combining cutting-edge technology with exceptional Japanese design and craftsmanship, it redefines what a hand pruner can be.

Product	Length	Weight	Blade Material	Blade Finish
HP-BODIE	8.5 in.	9.5 oz.	High Carbon Steel / Stainless Steel	Hard Chrome Plated
