

FLINT Precision Pruning Shears

Sharper, Lighter, Stronger Tools

Razor Sharp Blade

Starts sharp and specially hardened to stay sharper longer

Texturized Thumb Lock

For easy and quick single handed operation.

Offset Blade

To maintain natural hand strength and increases cutting leverage

Anchored Spring

Anchored to prevent the spring from popping out, shock absorbers for comfortable use

Replaceable Blades

Though they won't be needed for quite a while!

Strong and Durable

Blade is precision ground high carbon tool steel for incredible strength, and hard chrome plated for rust and sap resistance and easy cleanup

Ergonomic Handles

Designed to provide comfort and control while protecting against issues from long-term use.

HP-FLINT

The FLINT offers a top quality blade for excellent cutting performance with an ergonomic handle and texturized thumb lock allowing easy single hand operation.
