

# KNOX

## Rugged Long Reach Pruner

### More Cutting Capacity and Unmatched Durability!

#### Bigger Cuts

The blade has a cutting capacity of up to 1 inch

#### Branch Hook

Designed to remove cut branches. The hook is separated from blade for maximum strength and efficiency.

#### Stronger Pipe

The square construction adds extra strength and is light and easy to maneuver.

#### High Carbon Steel Blade

Specially heat treated to keep the edge an extra long time. Blade is replaceable.

#### Sturdy Handle

Long lasting design is built for maximum comfort and control.

#### Stronger Internal Design

The internal construction is much stronger, resulting in far less maintenance.

#### No Handle Spring!

The internal rod features a spring at the blade end which assists when cutting and protects the rod when trying to cut something too large.
